Have some seriousFun!

The **A M A Z I N G R A C E**

Excel Solutions Asia offer unique team based events across Asia allowing you a fabulous opportunity to interact on an informal level with your team, something which cannot happen easily within the workplace.

Our team based events are carried out in a relaxing, fun environment and each member of the team will perform a wide range of exciting and challenging tasks.

These events are essential in helping organisation's employees become confident and assured about their role within the company. This allows for greater communication and interaction between team members in their groups and across business units. Thus the aims of your company are achieved with all members feeling that they have played an important part in the company's success by unlocking their potential and passion.

During the event the teams will face a series of challenges at each location that will test the skills of each team member in a multitude of ways.

Each team will be awarded points based upon their performance and the success or partial completion of the tasks. These points will be calculated at the end of the event to asses which was the most successful team on the day.

A Revolution in Team Building Solutions
